

**At Arugula** we strive to provide you with a wine list that represents wines from the world over that are made with care and thought. You will notice that we have chosen many wines from Italy, not only because they are some of our favorites, but because their unique flavors go so well with our simple and flavorful cuisine. Many of our wines, like many of our dishes, are made using sustainable, organic or biodynamic farming methods. We have marked these wines (\*\*\*) so that you can easily identify them.

We hope that you enjoy taking a moment to choose something that may be new or exciting to you and that your choice will enhance your experience at Arugula. Please ask your server to lend a hand if you have any questions or would like a recommendation.
